

My Association Travel App by Nexit

Announcing the next generation in navigation apps!

The My Association Travel App is a unique navigation tool that knows that the journey should be just as important as the destination. An intuitive road-trip app that delivers more features than Google Maps or Waze, it predicts where you're going and shows you what's at each exit along the way.

A Navigation Platform Focused on Providing Users with Real Time Results

- An intuitive road-trip app that predicts where you're going and shows you what's at each exit.
- Searches for places along your route to prevent doubling back or driving too far out of the way.
- Turn-by-turn voice and visual directions guide you with up-to-date traffic info for the fastest route.
- Search your route by time or distance from where you started or where you're going, so you can see what exits have to offer and plan accordingly.
- City Mode feature helps you navigate your local errands with ease! Need a grocery store, a pharmacy, and dry cleaner near you? Use City Mode to find the closest exit that has all three to maximize your time and keep you on schedule!
