

Tuned Mono

NWFA members gain access to **Tuned Mono**: a full-spectrum hearing benefit from the nation's largest online audiology group. Tuned offers the most comprehensive suite of solutions for the prevention and treatment of all forms of hearing loss, hearing disorders, and balance issues.

Membership Benefits Include:

- **Unlimited online screenings** with no out-of-pocket costs.
- **Personalized reports and education.**
- **Discounted virtual audiologist consultations.**
- **A 30%–75% discount on devices and solutions** for full spectrum-hearing needs, including hearing protection, prescription hearing aids, over-the-counter hearing aids, and tinnitus apps.

Tuned Mono members gain access to one of the most robust and validated online hearing screeners available. All Tuned audiologists are doctoral-level practitioners who are licensed in the United States. They receive specialized training to practice at the top of their license. Members have access to highly qualified clinical professionals throughout the process, from screening and consultation through recommendations and ongoing support.

How to Use this Benefit:

1.

Quick Screening

A simple online hearing screener will identify hearing issues and prepare you for your consultation.

2.

Expert Advice

A virtual audiology consultation with a licensed professional will help you select the services or devices that work best for your needs.

3.

Personalized Solutions

Once a screening has been completed and a member chooses a device, the audiologist will place the product order and provide the discount code.

Certain services may not be available in all geographical locations.
